

ART 249: Interface Design II

ART 249 integrates the foundation level visual interface design skills introduced in ART 229 with the technical interface programming skills introduced in DMED 120. Students go through the full creative design process for interaction design of analyzing, planning, designing, coding, testing, and launching a custom designed web standard compliant HTML/CSS static web site for a proposed client. Students document their findings through client documentation and defend their design decisions via presentations and critiques.

(A student cannot earn credit for both DMED 220 and ART 249.)

Credits: 3

Prerequisites: DMED 120 and ART 229 with a grade of C or better or Instructor consent
