

Integrated Industrial Technology: Certificate of Achievement

Description

The Integrated Industrial Technology program at Leeward CC was developed in order to provide students on O'ahu with a foundation in electronic, electrical, mechanical, and automated control systems to meet the workforce needs of an emerging industrial technology industry.

The IIT Program provides students with a theoretical and practical understanding of mechatronic systems as well as develops practical skills and systems integration. Graduates will be able to program, operate, maintain, calibrate, and repair the equipment that makes up these systems.

The degree prepares students for occupations that involve the integration of electronic, electrical, mechanical, and communications systems. Typical occupations may include: automated programmable electromechanical systems technician, robotics and manufacturing systems technician, and process control systems integration technician.

All required IIT courses must be passed with a grade of "C" or better in order to be applied to all degrees and certificates.

Learning Outcomes

- Use appropriate safety, health, and personal protection procedures applicable to an industrial working environment.
- Utilize proper procedures for inspection, preventive maintenance, and corrective maintenance of integrated industrial systems.
- Demonstrate an understanding of the theory, construction, installation and operation of hydraulic and pneumatic systems in an automated controls environment.
- Demonstrate an understanding of mechanical drive systems, their function and the operation in an automated controls environment.
- Apply principles of process quality assurance to an automated control environment.
- Use CAD/CAM to create drawings of parts and assemblies to create prototypes using additive manufacturing.

*For the MATH 103 requirement, students must take College Algebra or higher in STEM track.

Program: [Integrated Industrial Technology](#)

Type: Certificate of Achievement (CA)

First Semester Requirements

Item #	Title	Credits
IIT 101	Industrial Safety Health & Environment	3
IIT 131	Mechanical Drive Systems	3
IIT 121	Electro Hydraulics and Pneumatics (fluid Power Systems)	3
ENG 100	Composition I	3
	MATH 103 OR MATH 135 (STEM)	3
	Sub-Total Credits	15

Second Semester Requirements

Item #	Title	Credits
ICS 141	Discrete Mathematics for Computer Science I	3

IIT 171	Principles of Process Quality	3
IIT 151	Rapid Prototyping	3
PHYS 100	Survey of Physics	3
PHYS 100L	Survey of Physics Laboratory	1
	Social Sciences (100 level or above) - CTE	3
	Sub-Total Credits	16
	Total credits for degree:	31
